Floral Ornament

Pipe and flood the green circle, and even out the icing with your scribe tool.

Pipe a bit of white at the top.

Swirl in the white to create a highlight.

Add the top to the ornament with black.

Use the thick light green to create teardrop shaped leaves by squeezing then pulling back.

With the thick white icing (the bag that has been cut into a "V" shape, squeeze and pull back to create petals.

Add another layer of petals on top between the previous set.

Use the thick green icing in the bag cut with a "V" to make leaves surrounding the flower.

Create the center of the flower by piping a few dots with the light green, black, and yellow.

Christmas Tree

Starting from the bottom, create tear drop petals all the way up the tree. Stacking them between each other.

Continue to the top of the tree and use one leaf to make a point at the top.

Using the black icing, add a stump at the bottom of the tree.

Pipe a bit of red 20 sec. icing onto the top bow and paint with a brush.

Create the bow shape and fill with icing.

Create the ribbons and place a dot in the center of the bow.

Snowman

1. Outline the top section of the hat with black.

2. Flood and even out with the scribe.

3. Cut the "V" tip off the thick white icing so that the cut is straight across. Holding the bag close to the cookie, swirl from the outside in to create the snowman's face.

4. Pipe the brim of the hat.

5. Fill in the brim of the hat and use two black dots to create the eyes.

6. Make a curved line of black dots for the snowman's smile.

7. Add the carrot nose!

Small Ornament

1. Flood the top oval of the ornament and even out with the scribe using the red icing.

2. Pipe a bit of white at the top.

3. Swirl the two together to create a highlight.

4. Use the green to create details at the bottom of the ornament with the same teardrop shapes as the leaves.

6. Add a few red dots on top.

7. Use the thick, green icing to create 3 dots at the top of the ornament.

8. Add a touch of black for the ornament hanger.

Santa Face

1. Pipe a semi-circle shape, leaving plenty of room on the edges which will become Santa's face

2. Squeeze the bag more tightly and fill in the shape.

3. Use the scribe tool to even out the icing

4. Pipe the outline of Santa's red hat, leaving at least a half inch space between the hat and the face.

5. Use the tick white icing to create large cotton like dots across the brim of the hat and on the tip of the hat.

6. Fill in the beard area with thick white icing.

7. Use the scribe to give the beard some texture. Then, add the mustache and pull out the sides with the scribe.
